Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel withdrawn claims 2, 3, and 10.

Reasons For Allowance

2. The following is an examiner's statement of reasons for allowance: the examiner agrees with applicant's argument that 7055 alloy as described in 5,221,377 is the closest prior art; more closely related to the present invention than Shahani (which was previously applied by the examiner). The instant specification shows unexpected results for the instant Al-Zn-Cu-Mg-Zr alloy as claimed, complete with the narrow Fe and Si ranges (arguments items 11-13), as compared to AA7055.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
